ARRANGEMENTS, INDOOR OR
OUTDOOR DECO.

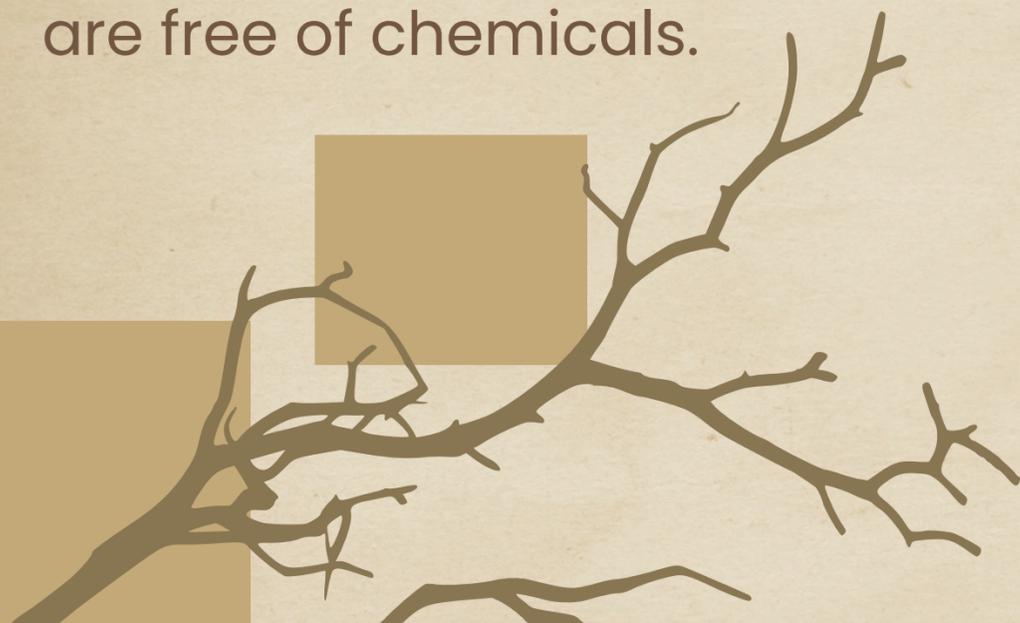

DECORATIVE WOOD COLLECTION

We are eco-sustainable, that is why we bring a unique alternative on the market, these logs come from peruvian waxflower fields and are free of chemicals.

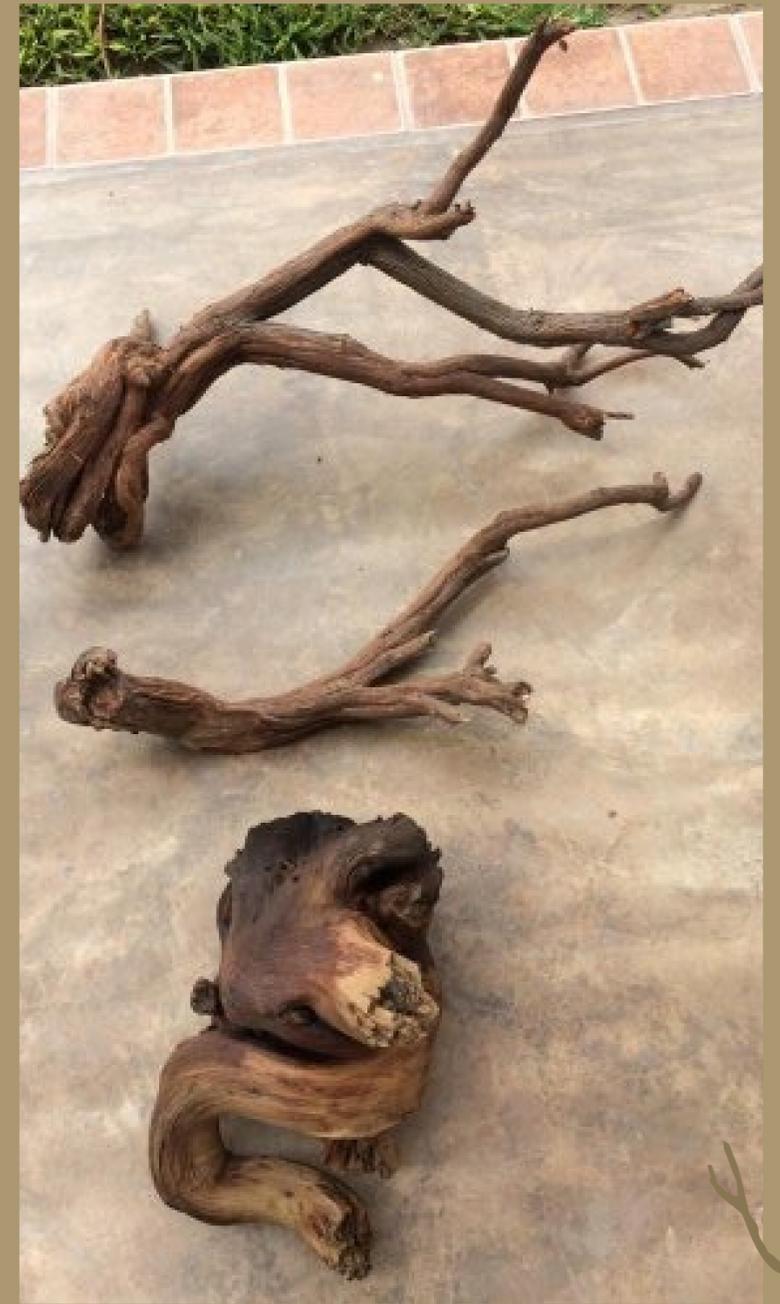

LINE OF WAXFLOWER LOGS

WAXFLOWER LOGS

The wax flower (*Chamelaucium* sp.) is a woody shrub with stems that are typically slender and branching. These stems are often covered in a smooth, gray-brown bark. As the plant matures, the stems can become thicker and more woody. The overall appearance of the logs and branches contributes to the plant's attractive and delicate nature.

LINE OF WAXFLOWER LOGS

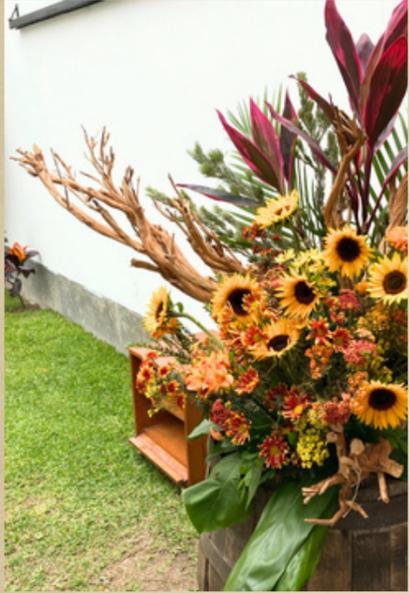

LINE OF WAXFLOWER LOGS

- Our logs comes from our family waxflower cultivation.
- The logs are collected from the fields and cleaned by sandblasting.
- Logs/shrunks/branches treated under APHIS regulation.
- It does not represent a danger to plants and/or animals.
- Perfect for floral arrangements (events), indoor and outdoor decorations.
- Our logs do not need any toxic treatment before entering the market.
- Completely natural, they do not have any base and/or lacquer.
